

## APPLE PAY® & GOOGLE PAY™

### WHAT ARE APPLE PAY® AND GOOGLE PAY™?

Whether you're on an iOS or Android device, you can make secure, contactless payments from your Reliance Bank check cards using only your smartphone. Tap your phone wherever you see the contactless payment symbol for one-touch checkout that protects your card number and other personal details from sellers.

### HOW DO I USE APPLE PAY®?

- Grab your iPhone and open the Wallet app
- Tap the +, select Credit or Debit Card, and tap Continue
- Follow the on-screen instructions to scan your card or enter your details
- Wait while we verify your details (this won't take long)
- Use your fingerprint or your face to make your first payment

## HOW DO I USE GOOGLE PAY™?

- Open Google Pay™ (you may have to download it from the Google Play™ store)
- Tap Add a Card and follow the onscreen instructions
- You may be asked to create a pin or password for your phone, or set up fingerprint or facial recognition
- Check your settings to make sure that Google Pay™ is your default payment method
- Use your pin, fingerprint, or face to make your first payment

## WHAT MAKES APPLE PAY® AND GOOGLE PAY™ SPECIAL?

- Use your phone as a debit or credit card
- Make secure, contactless purchases in shops, in apps, and on the web
- Leave your wallet at home
- Use them anywhere that accepts contactless payments

Try Apple Pay® or Google Pay™ today from your iOS or Android smartphone.
